

Company Extramural Activities

ATELIER DU GRÈS invites your staff to take part in these creative activities in a cultural and artistic setting.

Offer your staff the opportunity:

- ☐ to **take** part in a creative activity within a ceramic studio
- ☐ to **be** in an artistic environment
- ☐ to **create** something individually or as part of a group

- ☐ **Enjoy** a recreational and rewarding experience
- ☐ **Share** creative experiences in a ceramic studio
- ☐ **Waken** within themselves the pleasure of creativity
- ☐ **Create** an object in clay that can be used on a daily basis

They will spend three to four hours giving the clay a form, improving and perfecting it, while, at the same time, giving free rein to their imagination...

By creating one large piece together, or one made up of various parts that will encourage bonding and teamwork...

...or an individual piece,

the completion of which improves self-esteem

We offer you...

- A high-performance equipment in a place that can accommodate 12 people
- A pleasant, friendly, bright, welcoming and easy access

- A meeting with the working of the clay
- The recreational breaks made of exchanges and discussions

WORKING THE clay IS ...

Living matter
of the raw material

to the resulted object
sensitivity

Pride create

develop the spirit

initiative
